

Medication list and reminder record

Use this companion to “Keep a clear medication list and a simple reminder record”. Tick the preparation steps, then fill in only the details you need. This is a household record, not a medical assessment.

1. Before you start

Tick an item only when you have checked it. A tick records preparation, not a safety or health result.

☐ Gather current instructions and medicine packages.

☐ Copy medicine names exactly.

☐ Include other products to show the clinician.

☐ Mark unclear instructions for the doctor.

☐ Write the date the current list was checked.

☐ Mark older lists as out of date after confirmation.

☐ Set reminders only from confirmed instructions.

☐ Make sure everyone knows a blank is not a dosing instruction.
